-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Drawings***

2. The drawings are objected to because Figures 5 and 6 do not match. Both drawings are meant to display two different views of the same embodiment. However, Figure 6 does not include the groove shown in Figure 5. The wires are shown coming through the hole (No. 13) shown in Figure 3 rather than the groove (No. 14). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in

the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the examiner does not accept the changes, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Specification***

3. The disclosure is objected to because of the following informalities:
- Paragraph 0002, Line 2: The phrase "short of competitive edge" is not commonly used and easily understood.
  - Paragraph 0014, Line 3: The word --tape-- has been misspelled as "tap".

---

Appropriate correction is required.

4. This application is in condition for allowance except for the following formal matters:

As noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

5. The following is a statement of reasons for the indication of allowable subject matter:

Various lighting systems have been proposed for the interior and exterior of a vehicle, such as the emergency vehicle signal device taught by **Strickland** [U.S. 6,511,216] and the opera light fixture taught by **Stanton** [U.S. 6,379,029] both are examples of such lighting systems. However, there does not exist a window cornice fastened to the external top edge of a window frame of a motor vehicle comprising at least one slot and one light-emitting device secured to the slot that is incorporated into the signal light system of the vehicle.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

---

**Priesemuth** [U.S. 5,174,643] senses the opening of a door for illuminating the inside of the vehicle.

**Payne** [U.S. 5,560,701] presents a vehicle roof top lamp in the form of a spoiler.

**Hou** [U.S. 6,619,824] is a warning strip for automobiles with LEDs.
